# Brains Matter

---

Hi everyone.

As many of you have noticed, it's been a sparse couple of weeks in terms of episodes of Brains Matter coming out.

I apologise for this, but there's been a lot going on at the moment. Combine some things from my personal life, add to that lecturing at a couple of different universities, as well as my day job on top of that - I haven't had the chance to sit down and produce an episode in that time.

But never fear - I do have plans for this, and I've been reading all the e-mail that you have all sent. Thank you for the suggestions and comments - all have been taken on board. I've even tried to rectify some of the audio quality issues that some have noticed, and gone into the red and got some new equipment 😊

I will be back soon once things have settled down a little bit, hopefully bigger and better than ever. There will be a few changes to the show and format - and I must thank the folks at Modular Records, especially Glen, for the new (upcoming) theme to the show.

Take care all.

OG.
